Nadi Dosha Analysis — 8 Points (Supreme Koota)

What is Nadi? Each nakshatra belongs to one of three Nadis: Adi (Vata), Madhya (Pitta), Antya (Kapha). Same Nadi = same constitution = Nadi Dosha (genetic and health incompatibility at the deepest level). Nadi Koot carries the maximum weight of 8 points. If Nadi Dosha is nullified by cancellation rules, all other doshas automatically nullify. Graha Maitri nullifies Gana and Bhakoot dosha — but **NOT** Nadi Dosha.

Boy Nadi	Adi
Girl Nadi	Adi
Dosha Present	Yes
Status	CANCELLED — Rule 4
Reason	Same Rashi lord (Mars) — Ekadhipatya.
Score	8 / 8

⚠ **CRITICAL:** Same nakshatra AND same pada — classical texts warn this indicates death or widowhood. Navamsa comparison essential.

Mangal Dosha (Kuja Dosha) — Complete Analysis

What is Mangal Dosha? Mars placed in houses 1, 2, 4, 7, 8 or 12 from Lagna, Moon or Venus creates Kuja Dosha. The 7th house (Kalatra Bhava) and 8th house indicate maximum severity. Approximately 59% of the population has some form of Mangal Dosha. The dosha is considerably reduced after the native crosses 28 years of age. Mutual Mangal Dosha (both partners having it) may neutralize the effect.

Boy: Boy

Mars Sign / House	Leo / H1
Kuja from Lagna	Yes
Kuja from Moon	No
Kuja from Venus	No
Paap Score	155.0

Girl: Girl

Mars Sign / House	Sagittarius / H9
Kuja from Lagna	No
Kuja from Moon	No
Kuja from Venus	Yes
Paap Score	40.0

Mutual Status	Mutual — Possible Cancellation
Conclusion	Both have Mangal Dosha — mutual matching may cancel. Compare severity with astrologer.
Paap Samya	Boy Much Higher
Score Difference	51.1%
Age Note	Kuja Dosha considerably reduced after 28 years of age.

⚠ CANCELLATION WARNING: Afflicted Mars conjunct Rahu, Saturn or Ketu may INTENSIFY rather than cancel the dosha even in own/exaltation sign. Professional analysis is recommended.

Shadastaka (6-8 Relationship) Analysis

What is Shadastaka? When two signs are in a 6-8 relationship (6 signs apart on the zodiac wheel), they create friction called Shadastaka. **Mrityu Shadastaka** — when the ruling lords of those signs are mutual enemies — indicates maximum conflict in temperament and life circumstances. **Preeti Shadastaka** — when lords are friendly — indicates attraction despite differences. Moon sign Shadastaka affects day-to-day temperament and emotional compatibility. Lagna Shadastaka affects Bhav Melapak and overall life circumstances.

Ashta Koota — 36 Point Gun Milan

Ashta Koota Gun Milan is the classical 8-factor North Indian compatibility system. Maximum score is 36. **18+ points** = acceptable match. **24+ points** = good match. **32+ points** = excellent match. However, even a perfect score of 36 is incomplete without checking Nadi Dosha, Mangal Dosha, Shadastaka, and individual horoscope analysis. Do not rely solely on Gun Milan score for marriage decisions.

Koota	Girl / Boy	Score	Max	Status
Varna	Kshatriya / Kshatriya	1	1	Pass
Vashya	Aries / Aries	2	2	Same Group — Full
Tara	1/1	3	3	Both auspicious (Janma/Janma) — Excellent
Yoni	Horse / Horse	4	4	Same Yoni — Excellent (4/4)
Graha Maitri	Mars/Mars	3	5	Pass
Gana	Deva / Deva	6	6	Pass
Bhakoot	1/1	7	7	Same sign — Auspicious
Nadi	Adi / Adi	8	8	Cancelled

Total Score: 34/36 — Strong compatibility

1. Varna — 1 Point — Spiritual Compatibility

Girl's Varna should be equal or higher than Boy's. Brahmin: Cancer/Scorpio/Pisces. Kshatriya: Aries/Leo/Sagittarius. Vaishya: Taurus/Virgo/Capricorn. Shudra: Gemini/Libra/Aquarius.

2. Vashya — 2 Points — Mutual Attraction

Natural dominance and influence between partners based on Moon sign groups: Manava, Chatuspada, Jalachara, Vanachara, Keeta. Indicates who naturally leads in the relationship.

3. Tara — 3 Points — Health & Longevity

Count from girl's to boy's nakshatra and vice versa. Auspicious Taras (2nd, 4th, 6th, 8th, 9th) give full score. The 3rd, 5th, 7th Taras (Vipat, Pratyak, Vadha) are inauspicious.

4. Yoni — 4 Points — Physical

Compatibility

Each nakshatra has an animal symbol. Same animal = 4 pts. Friendly = 3 pts. Neutral = 2 pts. Enemy = 0-1 pt. Male-female pairs of the same animal score highest.

5. Graha Maitri — 5 Points — Mental Harmony

Friendship of Moon sign ruling planets. Mutual friends = 5. Friend + neutral = 4. Both neutral = 3. One enemy = 1. Mutual enemies = 0. Nullifies Gana and Bhakoot dosha.

6. Gana — 6 Points — Temperament

Nakshatras in 3 groups: Deva (divine/sattvic), Manushya (human/rajasic), Rakshasa (fierce/tamasic). Same Gana = 6. Deva + Manushya = 5. Any Rakshasa combination = 0-1.

7. Bhakoot — 7 Points — Emotional & Financial

Moon sign distance. 2/12 (Dwidwadash) and 6/8 (Shadastaka) = Bhakoot Dosha = 0 pts. 1/7, 3/11, 4/10 = auspicious. 5/9 (Navpancham) = partial concern. Friendly lords reduce dosha.

8. Nadi — 8 Points — MOST IMPORTANT

Same Nadi = Nadi Dosha = 0 points. Different Nadi = 8 points. This is the supreme koota carrying maximum weight. Nadi Dosha cannot be nullified by any other koota — only by its own 10 cancellation rules.

Tamil Porutham — 10 Point System

Tamil Porutham is the South Indian marriage compatibility system evaluating 10 factors based on Moon nakshatra. **Rajju and Vedha are the most critical** — their failure is considered strongly inauspicious regardless of other scores. 7 or more matches out of 10 is considered good compatibility in this system.

Porutham	Value	Result	Status
Dina	Dist 1	✓	Uthamam
Gana	Gana	✓	Uthamam
Mahendra	Dist 1	✗	Athamam
Sthree Deergha	Dist 1	✗	Athamam
Yoni	Yoni	✓	Uthamam
Rasi	Rasi	✓	Uthamam
Rasi Athipathi	Rasi Athipathi	✗	Madhyamam
Vasya	Vasya	✓	Uthamam
Rajju	Pada/Pada	✗	Athamam
Vedha	Vedha	✓	Uthamam
Matches: 6.5/10 — Madhyamam — Acceptable match			

Rajju — MOST CRITICAL

Same Rajju group is extremely inauspicious. 5 groups: Siras, Kantha, Udhara, Kati, Pada. Different groups = auspicious.

Dina — Health & Longevity

Count from girl's to boy's nakshatra. Should fall in 2nd, 4th, 6th, 8th or 9th Tara for good health and longevity.

Vedha — Freedom from Obstruction

13 specific nakshatra pairs obstruct happiness when the partners belong to a vedha pair.

Mahendra — Prosperity & Progeny

Boy's star counted from girl's should be 4th, 7th, 10th, 13th, 16th, 19th, 22nd or 25th for prosperity and children.

Sthree Deergha — Bride's Welfare

Boy's nakshatra from girl's must be more than 13 stars away for the bride's welfare and long life.

Rasi Athipathi — Lord Friendship

Moon sign ruling planet friendship indicates mental harmony and compatibility of thought and purpose.

Kerala Porutham — 10 Point System

Kerala Porutham follows the Prashna Marga tradition with a different Rajju table using 5 groups: Siro (head), Kantha (neck), Nabhi (navel), Kati (waist), Pada (feet). The same 10 factors are evaluated but with Kerala-specific nakshatra groupings, making results sometimes different from Tamil Porutham.

Porutham	Value	Result	Status
Dina	Dist 1	✓	Uthamam
Gana	Gana	✓	Uthamam
Mahendra	Dist 1	✗	Athamam
Sthree Deerga	Dist 1	✗	Athamam

Vasya	Vasya	✓	Uthamam
Rajju	Siro/Siro	✗	Athamam
Vedha	Vedha	✓	Uthamam
Matches: 6/10 — Madhyamam — Acceptable match

Vimshottari Dasha — Marriage Timing Analysis

What is Vimshottari Dasha? The 120-year Vimshottari Dasha system divides life into planetary periods (Mahadashas) based on the Moon's nakshatra at birth. Each planet governs a period of several years, during which its significations predominate. Marriage is most likely to occur during the Mahadasha or Antardasha of Venus (Shukra), Jupiter (Guru), Moon or 7th lord. The Dasha period at the time of marriage significantly influences the nature of married life.

Dasha Compatibility Verdict

Both running favorable dashas — auspicious for marriage

Venus and Jupiter Mahadasha/Antardasha periods are most favorable for marriage.

Note: This shows Mahadasha periods only. For complete Antardasha and Pratyantardasha timing of marriage, individual chart analysis by a professional astrologer is essential.

Dosha Samya — Balancing of Malefic Content

What is Dosha Samya? Beyond the Kuta system, each horoscope carries its own malefic (harmful) content from afflictions to the 2nd, 4th, 7th, 8th and 12th houses from the Ascendant, Moon and Venus. These are called Papakartari, Mangal Dosha, Saturn afflictions, Rahu-Ketu influences etc.

The principle of Dosha Samya (balancing of afflictions) states that if both charts carry roughly equal malefic content, the doshas tend to cancel each other out and not manifest destructively. If one chart is severely afflicted and the other is clean, the clean chart "suffers" due to the imbalanced pairing. This is why two Mangalis marrying each other is considered acceptable — the dosha is balanced. Paap Samya score in this report addresses this for Mangal Dosha, but a complete Dosha Samya analysis requires full chart evaluation.

Individual Horoscope Analysis — The Remaining 75%

Gun Milan and Porutham cover only **25% of marriage compatibility**. The remaining 75% requires detailed analysis of individual horoscopes:

Promise of Marriage: Does the 7th house and its lord in the individual chart indicate marriage? Is the 7th lord well-placed? Are benefics aspecting the 7th house?

Married Life Quality: 7th house lord's strength and placement, Venus condition (for men), Jupiter condition (for women), 2nd house for family harmony.

Longevity of Marriage: 8th house (Mangalya/Ayushya Bhava for wife) — the 8th lord and any afflictions to the 8th must be assessed carefully.

Progeny: 5th house lord strength, Jupiter's condition, any afflictions to Putra Bhava.

Health and Temperament: Lagna lord, Moon's placement, the 6th house for disease.

Graha Melapak and Bhav Melapak: Overlaying one chart on the other — how each partner's planets fall in the other's houses — reveals the actual dynamic of the relationship.

Marriage Timing — When Will Marriage Occur?

Marriage timing in Vedic astrology is assessed through multiple tools:

Vimshottari Dasha: Marriage most commonly occurs during Mahadasha or Antardasha of Venus, Jupiter, Moon, 7th lord, or planets placed in or aspecting the 7th house. The Antardasha of the 7th lord within the Mahadasha of Venus is particularly potent.

Transit (Gochara): Jupiter's transit over Lagna, 7th house or 7th lord. Saturn's transit over the 7th house or its lord often delays or tests. Rahu-Ketu axis crossing the 7th house can bring sudden or unconventional unions.

Navamsa Timing: The Navamsa (D9) chart is the primary divisional chart for marriage. Strong Navamsa Lagna and 7th house indicate a good marriage. Timing can be read from Navamsa dashas as well.

Ashtakavarga: High bindus (points) in the 7th house from transit Jupiter and Saturn support marriage timing. An astrologer uses all these tools simultaneously.

Compatibility Beyond Koota — What Astrologers Actually Look For

Professional astrologers consider the following when assessing a match holistically:

- 1. Longevity:** Both charts should indicate long life. If one chart shows early widowhood or serious health challenges, this must be addressed regardless of koota score.
- 2. Financial Compatibility:** 2nd and 11th house strengths in both charts. A chart with strong Dhana yoga should not be paired with one showing persistent poverty combinations.
- 3. Mental Compatibility:** Moon sign compatibility goes deeper than Nadi and Gana. The Navamsa Moon and the mutual aspect of Moon between charts matters greatly.
- 4. Children:** 5th house must be assessed in both charts. If both charts have afflicted 5th houses, the question of progeny must be discussed openly before marriage.
- 5. Temperament:** Lagna sign, Lagna lord, and Mars placement determine temperament. Some Lagna combinations are naturally harmonious (Trine Lagnas) while others create friction.
- 6. Remedial Measures:** Where doshas exist but marriage is otherwise indicated, proper remedies performed before marriage under expert guidance can significantly mitigate malefic effects. No chart is perfect — remedies are part of the complete service.

⚠ IMPORTANT DISCLAIMER — PLEASE READ CAREFULLY

The above Gun Milan / Porutham matching is just **25% of overall horoscope compatibility process** and does not give any conclusive confirmation. To assess the remaining 75%, a proper check of individual horoscopes for **promise of marriage, married life, longevity, progeny, health, temperament** along with **Graha Milap / Graha Milan, Bhav Milan** etc. is very important — and **this cannot be done by any software or app**. You should always consult a professional astrologer for a complete holistic analysis.

Ashta Koota (36 points): Tara Koota uses the 9-group system (Janma, Sampat, Vipat, Kshema, Pratyari, Sadhak, Vadha, Mitra, Atimitra) based on each person's nakshatra group — not the nakshatra distance. Yoni Koota uses the complete 14×14 animal compatibility matrix from classical references. Bhakoot Dosha is determined by counting from the girl's sign to the boy's sign — positions 2,3,4,5,6,8 create dosha; 1,7,9,10,11,12 are auspicious. Six classical exception pairs and same-lord cancellation are implemented per book p.74-77.

Tamil Porutham (10 factors, out of 10): Dina uses girl → boy inclusive count; inauspicious taras (Vipat/Pratyari/Vadha) give 0; pada-based Madhyamam (0.5) exceptions implemented for 12th/14th/16th star positions. Yoni uses animal compatibility scores (same=1, neutral/friendly=0.5, hostile=0). Stree Deerga: count >13 = Uthamam, 7–13 = Madhyamam. Rasi uses sign lord (Rasi Athipathi) relationship: friends=1, neutral=0.5, enemies=0.

Kerala Porutham (10 factors, out of 10): Dina uses girl → boy inclusive count (same formula as Tamil). Yoni checks Male/Female gender of the nakshatra animal — only same animal with girl=Female yoni and boy=Male yoni = Uthamam (1). Rajju uses Kerala tradition groupings (Siro, Kantha, Udara, Ooru, Pada) which differ from Tamil groupings. Stree Deerga: count >16 = Uthamam, 7–16 = Madhyamam. Rasi Athipathi: neutral lords treated as Uthamam (1) in Kerala tradition. Rasi Porutham: positional check — 6/8 = Athamam, 2/12 = Madhyamam, others = Uthamam.
